

RE: ClinicalResource@Ovid is renamed Clin-eguide

Dear ClinicalResource@Ovid Customer:

We are delighted to inform you that on July 16, 2007, ClinicalResource@Ovid will be renamed Clin-eguide: Clinical Decision Support.

Clin-eguide will include a link on the main search screen to new and valuable Wolters Kluwer drug information content including:

- Toxicology information
- IV compatibility
- Medical calculators

As an existing customer of ClinicalResource@Ovid, you will automatically have access to the new content and enhancements for the remainder of your contract term at no additional charge. All your existing URL links and access/authentication mechanisms will remain unchanged. The interface will remain unchanged, with an additional link to the new content being offered (see highlighted link in screen shot below).

Wolters Kluwer Health is in a unique position, thanks to the strength of its medical and pharmaceutical content, to provide healthcare organizations with a single-source solution for clinical decision support. By integrating information resources from, and providing access to, our well-known brands Lippincott Williams & Wilkins, Facts and Comparisons, and Ovid Technologies, Clin-eguide offers clinicians and pharmacists alike one easy-access destination for *all* of their information needs.

If you have any questions, please contact Customer Support at support@ovid.com. We welcome your feedback as you take advantage of our single source for clinical decision support.

Sincerely,
Patti Corbett, VP, Marketing
Clinical Decision Support
