

ANNOUNCEMENT

XVIIIth MEETING OF THE INTERNATIONAL ARPA

Berlin, 22-26 May 1966

In the frame of 30 main lectures and a corresponding number of free communications, personalities from different countries will express their view-point on the following subjects:

1. New surgical techniques in periodontology;
2. Failures in the treatment of periodontal diseases;
3. Juvenile periodontal diseases;

All lectures will benefit of simultaneous translation in English, French and German.

One day during the Meeting, Spanish-speaking lecturers will be allowed to express themselves in their own language, and their presentations will be translated in English, French and German.

Forms for admission to the Meeting may be obtained through the Secretary General of the Meeting:

Dr. Friese
Bäckerstraße 102
338 Goslar (Germany)
