

CONTENTS OF VOLUME 14

No. 1, March, 1967

Y. MATSUSHIMA: C-reactive Protein in the Postoperative Patient	1
T. TAKEUCHI and Y. SHINYA: Studies on Improving the Quality of Drinking Water in an Agricultural District with a Special Reference to a Method to Remove Agricultural Chemicals	23
N. KOMI: Fibrocystic Changes of the Pancreas in Japanese Infants . . .	29
R. OKAMOTO, K. KAWASHIMA and K. FUJII: Actions of Prolactin on the Male Sexual Organs of the Rat	37
K. SENGOKU: Histochemical Studies on the Human Testes, Especially on the Interstitial Cells of Leydig	51
H. TANAKA, S. MISHIMA and Y. ABE: Studies on the Behavior of <i>Trimeresurus Flavoviridis</i> (Hallowell, 1860), a Venomous Snake, on Amami Oshima Island in Regard to Speed of Movement, Nocturnal Activity and Sensitivity to Infra-red Radiation	79
I. KANEKO: Proteins in Embryonic Bovine Enamel	105
M. SAKAMOTO, H. SHIMIZU, T. KOMAMURA and K. MATSUMOTO: Secretory Response to Lingual Nerve Stimulation in the Submandibular Gland of the Dog	113
M. TASUMI: The Vascular System in the Developing Molar Teeth of the Rat	123

No. 2, June, 1967

S. HORIGUTI and Y. SAITO: Clinical Observations on Hay Fever due to Japanese Cedar Pollen	141
S. HORIGUTI and A. MURAKAMI: A Morphological Study of Ciliated Epithelial Cells in Epipharyngitis	157
M. NAGASAKI: Epidemiological Study of <i>Clostridium Perfringens</i> (<i>Welchii</i>) Food Poisoning—The Carrier State and Its Variation in Humans	173
H. IWASA, Y. OKAMOTO, K. TAMURA, M. TAKAHASHI, R. HATANO and K. NAGAKURA: Studies on Parabiotic Union	195
K. TATSUMA: Study on Energy Metabolism in Delivery	207
T. FUSAYAMA, G. SATO and T. MAEDA: Device for Detail Reproducibility Test of Impressions	235

M. NAGAO: Influence of Prosthetic Appliances upon the Flow of Crevicular Tissue Fluid. Part 1. Relation between crevicular tissue fluid and prosthetic appliances	241
M. NAGAO: Influence of Prosthetic Appliances upon the Flow of Crevicular Tissue Fluid. Part 2. Crevicular tissue fluid followed up after the insertion of prosthetic appliances	259
H. ITO, S. ENOMOTO and K. KOBAYASHI: Electron Microscopic Study of the Human Epithelial Attachment	267

No. 3, September, 1967

Y. NAKAJIMA and K. KISHI: Histochemical Studies on the Mamillary Body of the Rabbit	279
M. HIRAGA, K. ABE and F. K. ANAN: The Subunit Structure of Catalase: Estimation of Molecular Weight of Performic Acid-Oxidized Catalase	293
K. ABE, M. HIRAGA and F. K. ANAN: A Kinetic Study on the Role of Sulfhydryl Group of Catalase, Especially in the Reaction of the Peroxide Complex Compounds	309
M. MINAI: Difference in Susceptibility of Benzene among Rabbit, Hamster, Rat and Mouse	327
H. AMEMORI, Y. SATO and M. KAWAKAMI: An Experimental Study of Changes in the Weight of the Mandible after Loss of Lower Posterior Teeth	339
T. NAKAJIMA: A Quantitative Method for the Measurement of Increased Vascular Permeability	349
K. HASEGAWA: Biochemical Study on Gingival Fluid: Lactic acid in gingival fluid	359

No. 4, December, 1967

T. KOYAMA: Studies on the Antitumor and Pharmacologically Active Principles, Prunacetins, Derived from <i>Str. Griseus var. Purpureus</i> Strain CD-270	373
N. KOMI and Y. SEKI: An Analysis of 46 Autopsy Cases of Japanese Children, Showing Fibrocystic Changes of the Pancreas and One Case of Fibrocystic Disease of the Pancreas	407
M. ABE: Effects of Mixed NO ₂ -SO ₂ Gas on Human Pulmonary Functions: Effects of air pollution on the human body	415
M. HANARI: Mold Distortion by Four Different Investing Techniques.	435

T. WATANABE: Biological and Serological Studies on Oral Mycoplasma	447
S. IIDA and T. MIMURA: Effects of Alcohol on Dentin Formation in Hamster and Rabbit Incisor	461
M. SAKAMOTO: Analysis of Chorda Tympani Response for Chemical Stimulation to Rat Tongue Utilizing New Summator	471
M. TAKAGI: Adenomatoid Ameloblastoma: An analysis of nine cases with electronmicroscopic study of two cases	487
